## TRAINING AND SUPPORT – HOW IT WORKS

We've worked with many training providers and hundreds of employers who all want to deliver excellent service to support their apprentices and are committed to developing and upskilling their current workforce.

First things first, let's have a chat. Our training is never off-the-shelf – it's always customised to your organisation and needs.

We'll discuss what you're trying to achieve and the gaps that need filling. We'll then propose training that works for your goals.

Our training can be remote or face to face. It can be short sessions or longer ones, individual or group – we tailor it to you.

Many providers we speak to aren't sure what they need – and that's fine. We're rather good at asking the right questions to identify how we can get you on the road to succeed.

## TRAINING AND SUPPORT – HOW MUCH IT COSTS.

As you can see from above, everything is bespoke so it's not possible to list prices here. We can tell you that we're very reasonably priced and can work within your budget.

We also offer discounts for block bookings.

Please get in touch for a quick chat and we can give you an indication of our training costs.
